1. Our course is delivered over a 9-month period.
2. Our courses begin on 1st January, April, July and September.
3. An online platform is used to track progress and distribute work to learners
4. The course is designed to systematically deliver all elements of the NEBDN syllabus during the programme
5. You will have access to your tutor and administrator throughout the course
6. The live webinars are completed in the evening eliminating any impact to your working week

Record of Competence (RoC)

Throughout the duration of the course, learners will be required to create and submit Records of Competence (RoC) via the online platform. This enables course tutors to see the progress being made by you along with the quality of your learning.

This also enables the course tutor to provide feedback and guidance to ensure that you are achieving the very best outcomes to your learning.
